Community: Roblox has an active community of players. A group of these players have joined together to create a group called ROBLOX Users as Leaders, or RUL. This group has made several YouTube videos on what they expect the future of ROBLOX to be. For example, there was a video on RO-NT (Roblox On New Technology) which was released in 2013. The main purpose of this is to improve ROBLOX so that it can match the technological advances that have been made since 2012, including 3D technology and mobile platforms, such as Android and iOS.

Some people just find it hard to see how many Robux they will actually make from their personal game development because the process is difficult and lengthy that the estimated amount of time it takes just for 1 point can be up to 6 months.

ROBLOX Studio 2.0: On December 28th 2018, ROBLOX announced a new version of their Studio known as "Studio 2.0". The company claims that it is meant to be a new version of their previous releases which contains many improvements and better tools. It also allows users to earn cash if they choose to sell their items in the catalog.[91] On January 1st, 2019, ROBLOX updated the game and added a feature which allowed users to get an early access for Studio 2.0.

ROBLOX classifies its users as members in its Terms of Use. As a member, ROBLOX reserves the right to collect and share personal information, including member account data, e-mail addresses for communication with users such as surveys, notices about the service or changes to the Terms of Use or Privacy Policy, etc., IP addresses and cookies.[2] According to their Privacy Policy, ROBLOX may disclose personal information such as member account data to third parties in order to comply with legal obligations or prevent any illegal activity.
